Autumn Term

Dosbarth Branwen

First course

Complete these regularly

- Read school reading books and for pleasure, Welsh and English, weekly.
- Practice your handwriting. Why not try joint writing?
- Learn and practice times tables up to 12.
- Practice spelling key vocabulary.

Theme: Weather and Disasters

Main Course

Choose 4 to complete of the term:

- Research natural disasters e.g earthquakes and floods. Describe how these happen, referring to their effect on the world and its people. Present this any way you like. You could even create a 3D diagram.
- Choose a Weather Science Experiment by following the link below, or think of this yourself. Remember to record a video!
<https://www.science-sparks.com/weather-science-for-kids/>
- Keep a daily record of the weather each week. Use a thermometer to measure the temperature or create a rain gauge to measure rainfall. You can present your findings by creating a bar graph. You can use this to inform a 'weather report' video.
- Many religions believe in 'Weather Gods'. Can you look more into this?
- How is the weather in this country different from the weather in other countries? Investigate the differences and present the findings.

Dessert

Optional to complete throughout the term.

- Create a piece of art inspired by extreme weather.
- Record a video of yourself reporting the weather of the week.
- Choose something from the 'Composing and Creating Competitions' section of the Eisteddfod yr Urdd 2027 syllabus.
